MYSORE ECONOMIC JOURNAL,

BANGALORE, 9th July 1918.

Dear Mr. Balasundram Iyer,

I am herewith sending you the book referred to in your D.O. I have in active preparation a note on the subject of a similar publication for Mysore. Taking that our book will run to about 75 pages or so, I think the cost is not likely to be excessive.

I hope to send you the note before this evening.

Yours sincerely,

Editor.

My dear Sir,

With reference to the suggestion that a publication similar to the Gwalior War Book may be undertaken by the State, I enclose herein for favour of your kind perusal a note on the same.

I have seen the Chief Secretary in the matter. He is willing to offer every help necessary in regard to bringing it out.

I have generally discussed the printing aspect of the question with Mr. D.B. Ramachandra Mudaliar, Officiating Superintendent of the Government Press. He is agreeable to do everything that may be needed to make the publication as artistic a production as may be possible in all the circumstances of the case.

If required, I shall wait upon you on Friday next in connection with this subject.

Yours sincerely,

/Hayavadana Rao

PRINTING AND COST OF PUBLICATION:

The printing should be entrusted to the Government Press. have talked over the subject with Mr. D.B. Ramachandra Mudaliar, the Officiating Superintendent and he is agreeable to do it.

The size of the publication may be Royal Quarto 12½ by 10 inches or Demy Quarto 11¼ by 8¾ inches.

The Letter Press portion in a publication of this matter should be limited. The illustrations should really go to make up the book. These should be done well and printed with great care and taste. The Gwaliar book is not quite up to the mark in this respect.

I would limit the Letter Press to 30 pages Royal Quarto. The illustrations may range from 30 to 40. The total number of pages printed, Letter Press and Illustrations, may be limited to 75 pages. The paper used should be real art paper of good quality and foam white in colour. The Letter Press and blocks may be lightly bordered in an artistic manner to show off the printed page to advantage.

The printing ink to be used may preferably be bronze blue.

The number of copies to be printed may be limited to 1,000 unless more is required. The binding may be in three different kinds:-

Full leather 50 copies;
Half leather 50 copies;
Cloth with gold gilt } 900 copies;
Total 1,000 copies.

The distribution of copies may be settled as soon as the copies get ready for despatch.

Cost of publication:

Having regard to the rise in the price of printing materials, the following estimate for printing and binding 1,000 copies as proposed above is provisionally given:-

	Rs
Paper and printing and binding including gilding	1,500
Blocks	500
Total	Rs 2,000

It is possible that total cost may be less than this. Even if the cost amounts to this figure, the cost per copy will be only Rs 2 which is not much.

Help required:

For preparing the letter press, the necessary materials must be got together and supplied. The help of the Chief Secretary to Government in the matter is essential in regard to this matter. I have spoken to him and he is agreeable to do everything possible. Other departmental heads and Secretaries to Government may be asked to help as required.

For illustrations, a collection will have to be made first and the subjects chosen. For this also the assistance of the Chief Secretary and other persons, official and non-official, is required.

In regard to printing, the help of the Superintendent, Government Press would prove invaluable. His closest co-operation is absolutely essential for bringing out the publication in a manner worthy of objects in view.

Time required:

If materials are collected, the work may be put in hand at once. The Letter Press may be got ready in about 4 weeks. The question of publishing should be settled before the letter press matter is taken up. Adequate time will also be required for block making and printin

10

As the printing is to be on art paper, some time should be allowed for drying.

Provided the whole matter required is given to the Government Press within one month from to-day, it ought to be able to issue the book in about two months at the latest. The total time thus required for the whole work will be about three months from the date of commenc-ing the work.
